

# Darshil Gajul

Mumbai, India | 📞 +91 9405800815 | ✉️ darshilgajul2003@gmail.com | 🔗 LinkedIn | 🐙 Github | Portfolio

## Education

**Sandip Institute of Technology and Research Centre**

Nashik, Maharashtra

Bachelor of Technology in Computer Science (CGPA: 8.25 / 10.00)

2020 - 2024

## Technical Skills

**Languages:** Java, JavaScript, TypeScript.

**Frameworks:** React.js, Next.js, Tailwind CSS, Node.js, Express.js.

**Databases:** MongoDB, MySQL.

**Others:** Git, Github, Postman, Docker, Visual Studio Code.

## Experience

**RAACOM Infosystems**

Sep 2024 – Dec 2024

Backend Developer

- Designed and developed RESTful APIs using **Node.js** and **Express**, enhancing API reliability and performance while maintaining clean, well-documented code, ensuring seamless data exchange and integration with front-end applications.
- Collaborated with a team to implement efficient database management solutions, enhancing **application functionality** and **streamlining** workflow processes.
- Streamlined development workflows by employing version control systems like **Git** and conducting regular code reviews.

**CognoRise InfoTech**

Mar 2024 – Apr 2024

Web Developer Intern

- Developed dynamic web applications using the **MERN stack**, collaborated with teams to deliver **scalable solutions**, and **optimized code** for performance. I also resolved complex technical issues, ensuring high-quality and functional outcomes.

## Projects

Identable | **Angular.js, Node.js, Express.js, MongoDB, Tailwind CSS**

- Architected and maintained scalable backend systems for Identable, a **SaaS** platform that leverages **AI** to revolutionize social media content creation and scheduling.
- Developed APIs to support AI-driven content generation and automated scheduling, reducing manual workload for **businesses by 40%**
- Integrated advanced AI algorithms to automate the creation of personalized, engaging content tailored to user needs and preferences.

Taska | **React.js, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS**

- Developed Taska, a web application that **streamlines** team task management, **boosting productivity by 30%** through optimized task assignment, progress tracking, and collaboration.
- Designed a user-friendly interface to **empower administrators and users** with comprehensive task management features for improved workflow efficiency.

Prismify | **React.js, TypeScript, Appwrite, Tailwind CSS**

- Developed a feature-rich social media platform using React and TypeScript, integrated with **Appwrite** for backend services and **Tailwind CSS** for styling.
- Built and optimized core functionalities such as **user authentication, dynamic feed generation, profile customization, post creation, and content interaction**, enhancing user experience and engagement.
- Collaborated in **agile teams**, achieving **100% of sprint goals** and ensuring timely feature delivery through iterative development.

## Activities

---

### Google Developer Student Clubs (GDSC)

- Drove web development initiatives led by the GDSC group.
- Developed web projects and collaborated with fellow members to create engaging and impactful applications.
- Facilitated knowledge-sharing sessions, workshops, and hackathons focused on enhancing web development skills and fostering a collaborative learning environment.
